### Volumetric Flasks

#### VITLAB®

PMP. Class A, tolerances acc. to DIN EN ISO 1042, glass-clear, with ring mark individually calibrated to 'In'. With standard NS PP-stopper. With imprinted lot-number and batch certificate. Exposure to temperatures up to 121 °C (autoclaving) will not cause permanent exceeding to tolerance limits. To preserve markings, cleaning at no higher than 60 °C is recommended. Also available with DAkkS calibration certificate or individual quality certificate.

## TeleScoop Samplers Bürkle

For industry and water treatment. Ideal for sampling from pools, tanks, manholes, surface water. The telescopic rod can be equipped with different snap-on scoops for various applications.

- **Telescopic rods:** aluminium, heavy-duty version, with snap-on connection for all scoops. Length steplessly adjustable.

- **Metal beaker:** st. steel, with scraper edge. Ideal for powders, granulates, pastes, sludge.

- **Angled beaker:** the angle between the telescopic rod and beaker can be adjusted through 90° to adapt it for different applications.

- **Pendulum beaker:** irrespective of the rod angle, the beaker always assumes a vertical position so that none of the contents are lost. This makes it suitable for deep and narrow shafts (130 mm Ø). In PP and V2A.

- **Bottle holder:** for all bottles up to 88 mm Ø. For safely filling glass, plastic and metal bottles. Angle adjustable through 90°.

- **Surface catch net / depth catch net:** for taking solid and organic samples from waters. Mesh width 2 to 5 mm.

| Description             | Version        | Order No. | Special Price |

## Sampling Tubes DispoDipper Bürkle

Sampling tubes manufactured in a clean room specially designed for disposable use. The scaled sample containers can be used for an exact measurement and they show contents up to 50 ml. After sampling, the containers can be leakproof closed.

The closed handle design ensures secure handling and prevents the dipper slipping out of your hand. DispoDipper is completely manufactured in one piece and can be used for sampling and subsequent transport of the sample in one device. In this way, cross-contamination or sample impurities are almost impossible.

- Suitable for 2" drum openings.
- Blue, made of PP.
- Individually packaged and optionally sterilised by gamma rays.
- Production and packaging according to clean room class 7.
- Complies with EU food requirements and FDA regulations

## Box Top Dispensers for Parafilm Heathrow Scientific

Easy application with no mess.

Accommodates 2 x 50 mm or 1 x 100 mm Parafilm® M rolls.

### Easy application:

Simply place the dispenser on top of the Parafilm® M box and pull the sealing film through. There is no need to remove rolls from the packaging. Built in safety blade slides and cuts with no danger to fingertips and eliminate the need for scissors. Supplied with 2 safety blades, additional replacement blades are available for purchase. Made from ABS plastic making the unit easy to clean.

| Colour      | Material | Order No. | Special Price |

## Pipettes Research® plus 3-Pack Eppendorf

- Side tip ejector.
- Eppendorf PerfectPiston®: ultralight and highly resistant piston system.
- The positions and shapes of the control buttons / displays have been optimised for stress-free work procedures and intuitive operation.
- The spring-loaded tip cone provides you with an optimal pipette fit with min. insertion force (not available for 5 and 10 ml pipettes).
- The adjustment option allows you to perfectly adapt the pipette for specific liquids or other external conditions.
- With the volume setting, you can switch from max. to min. volume in just a few turns.
- The 4-digit volume display with magnifying display makes quick and accurate volume settings easier than ever.
- The quick lock makes the lower part particularly easy to remove and service (not available for 5 and 10 ml pipettes).

### Option 1:

3 pipettes, 1 channel, with variable adjustable volume (0.5 to 10 µl, 10 to 100 µl, 100 to 1000 µl), 3 reusable epT.I.P.S.® Boxes with 96 pipette tips each.

### Option 2:

3 pipettes, 1 channel, with variable adjustable volume (2 to 20 µl, 20 to 200 µl, 100 to 1000 µl), 3 reusable epT.I.P.S.® Boxes with 96 pipette tips each.

### Option 3:

3 pipettes, 1 channel, with variable adjustable volume (2 to 20 µl, 20 to 200 µl, 100 to 1000 µl), 1 reusable epT.I.P.S.® Box with 96 pipette tips each (1000 µl) as well as samples of pipette tips 5 / 10 ml.
